My name is Vicki, I am 35yrs old and married. I have been a cop for the last twelve years in a major metropolitan department. I am athletic and a huge adrenaline junkie! I love driving fast, snowboarding, river rafting and of course feeling the wind through my hair while cruising a hot summer day on a custom bike. But don't let my bad ass exterior scare you off, I may be a guys girl but I swear I look good in a dress too.

I want to thank Steve Oatney for making it so easy during our photo shoot, Monte Moore for inviting me to lay down with the hot chicks he created on Groundpounder and Tony Martinez from Copr Choppers for allowing me to be a part of the unveiling of his latest of the most amazing Choppers built.
